Industrial showroom space

Total area of 113.4 m²

The 8-meter high exhibition space, the walls in calm gray and the light concrete floor give **the interior an industrial and minimalist feel**. Inside, the original facade of the building from 1931 has been recreated on one of the walls, a reminder of the site's history. **Glazed storefronts** across the front of the building catch the eye of passersby and invite light and shadows into the interior.

Showroom side room

Total area of 43,5 m²

Available at the rear of the exhibition space, it can be used as **a workshop or storage room, interview space or catering room**.

Exterior patio

Total area of 282 m²

The intimate outdoor space lined with paving stones is a natural **extension of the showroom** limited only by the storefronts.

In spring and summer, the patio is **used for outdoor activities**. The walls of the building are used for evening screenings and the atmospheric space, limited on three sides, makes it possible to organize a **cocktail party outside**.
