WISE HABIT LIBRARY OF SUSTAINABLE MATERIALS

Mogu: Acoustic Wave

DESCRIPTION:

Soft and ethereal, mycelium based acoustic wall panels with the visual softness and sound-dampening properties. Available in a hexagonal shape, allowing for different typologies of compositions and arrangements. The mycelium is naturally white, but you can choose from a wide palette colours.

- easy screw-less fixing system
- wide palette of colours
- mycelium-based material

APPLICATION:

acoustic insulation

Name	Acoustic Wave
Country	Italy
Supplier	Mogu
Composition	Fungal mycelium, upcycled textile residues
	Fire reaction classification:
	Fire-proof (B-s2-d0)
Material property	Only color (C-s2-d0)
certifications	Natural (D-s2-d0)
	Certified acoustic performance
	Excellent UV resistance
Environmental & health	VOC-free

We are convinced the change starts from design and designers.

Our Library of Sustainable Materials Library in Warsaw is a physical and digital repository of regenerative, sustainable and innovative materials for product design, interior design and architecture.

Our mission is to provide access to a carefully curated collection of materials that support responsible design

- considering factors such as raw material origin, life cycle, biodegradability, recyclability and potential applications. The Library is open to everyone – we invite you to collaborate with us in shaping a better future.

We understand how crucial the design phase is for the planet, which is why we support designers and architects in making conscious, responsible choices. We equip them with the knowledge and tools that foster creativity and contribute to human health and planetary well-being.

Visit the Wise Habit Sustainable Materials Library and join a community of architects building a more sustainable world.
