

We stand for design that creates  
a mindful and sustainable world.  
We are convinced that products impact our lives.

That is why at Wise Habit we create products and  
ideas that support you in every aspect.  
Helping you to build wise habits.  
To live a conscious and deliberate life.

# WISE HABIT BREWING

Pure water → perfect coffee → mindful pause.

The collection brings together products and accessories built around the conscious **use of filtered water** and the craft of **high-quality coffee and tea brewing**.

We create a **refined, mindful experience** defined by attention to every detail – from water quality and mineral composition to each brewing parameter.

We believe that coffee and tea are more than simple beverages – they are **daily rituals** that connect people to **moments of focus, pleasure, and care**. Through **precise design of materials, form, and functionality**, we create an experience that is enjoyable, intuitive, and effortless. Each product is carefully calibrated to deliver **consistent quality**.

### Adaptive

**Designed to adapt to personal preferences**, the collection includes **complementary products, practical accessories**, and features that allow **customised brewing**.

### Health and well-being support

**Hydration** with quality beverages is key to good health. Designed to preserve the natural **health benefits** of coffee and tea.

### Quality water

The perfect brew begins with **high-quality water**. Its **purity influences taste**, and our machines help ensure excellent results every time.

### Simplicity

**Intuitive and easy to use**, the system makes the whole process smooth and effortless, with **functions all clearly organized** and **including everything needed for a complete experience**.

### Modular

The system's modular **elements can be used individually, combined, or arranged** as part of a complete collection. **Each module can serve multiple functions**, offering the freedom to create setups that fit individual needs.

### Responsible materials

**Reduced use of plastic** in favor of metal and glass, with **durable materials** and **finishes that resist aging**.

### Designed to last

**High-quality internal components** ensure durability, consistent use and long-lasting performance with **minimal maintenance**.

### Repairability and Extended Warranty

Easy to disassemble and reassemble, our products are build to last, minimizing the need for replacements and supported by a **5-year extended warranty**.

# WISE BREWING

# Wise Habit Filter

<b>DIMENSIONS</b>	W 130 mm x H 110 mm, main cylinder diameter: 60mm,
<b>WEIGHT</b>	~600 g
<b>ROTATION ANGLE</b>	main cylinder rotation, 35° in each direction for convenience
<b>FILTRATION TECHNOLOGY</b>	coconut shell activated carbon
<b>FILTRATION EFFICIENCY</b>	initial ≥99% for chlorine, heavy metals, and sediments
<b>FILTER LIFESPAN</b>	up to 3 months or approx. 1000 L / 300 US gal (varies on water quality)
<b>OPERATING WATER PRESSURE</b>	0.01-0.4 MPa
<b>FLOW RATE</b>	3.5L/min under 0.3MPa
<b>OPERATING TEMPERATURE</b>	3-38°C

Wise way to preserve taste. Prevent waste.

The Wise Container features a manual hermetic lid that locks in flavour and aroma, keeping your food - including coffee beans - fresh for longer.

Made from **borosilicate glass**, it combines lightweight resilience with exceptional purity.

Borosilicate glass is chemically neutral, meaning it won't react with your food or alter its flavour - only freshness remains.

**A perfect blend of form and function** for everyone who cares about food.

**LONGER FRESHNESS OF FOOD AND COFFEE**

**Hermetic seal limits oxygen exposure**, protecting everything from coffee beans and tea leaves to pantry staples, while locking in the freshness and aroma.

**ADAPTIVE**

**Interchangeable parts** let container **integrate seamlessly with the Wise Habit Coffee Grinder**, or function as a **hopper** when needed.

**DUAL-FUNCTION CAPACITY**

Available in **0.4L and 0.7L sizes** - perfect for coffee, tea, herbs, nuts, or other pantry staples.

**HEALTH BENEFITS**

Tinted borosilicate glass adds **UV protection**, helping maintain quality and freshness.

**INTUITIVE SYSTEM**

**Pump mechanism seals contents with each press**. Built-in colour indicator shows when the seal is active, and a single button release it effortlessly.

**DESIGNED TO LAST**

Extended 5-year warranty highlights the **product's quality and ensures long-lasting use**.

**PROCESS & MATERIAL:**

- Borosilicate glass, natural or tinted color with UV protection
- BPA-free food-grade plastic and silicone
- Stainless Steel 304 metal elements

**COMPONENTS AND ACCESSORIES:**

- Components: top lid with vacuum mechanism, metal internal elements, silicone gaskets, glass jar

**SIZE: (WHEN OPEN):**

**0,4L: D 96 x H 128 mm**

**0,7L: D 96 x H 168 mm**

**DESIGNER:**

**Martyna Piaściak,  
Piotr Kasprzak**

Freshness stored.  
Mindfulness preserved.

# Wise Container (Jar)

<b>DIMENSIONS</b>	0.4 L: 96 x H 128 mm (when open) 0.7 L: 96 x H 168 mm (when open)
<b>WEIGHT</b>	~500 g
<b>VACUUM LEVEL</b>	range from 0 to -0.35 bar (optimal for food preservation)
<b>VACUUM KEEPING TIME</b>	min. 5 days, up to 7-10 days

Grind with precision.  
Brew with consistency.  
Live with clarity.

Calibre Grinder is designed for both beginners and coffee enthusiasts, offering a precise, intuitive, and quiet grinding experience.

One-button operation, an integrated scale, and anti-static drop-down mechanism ensure consistent results with minimal waste. A manual system saves preferred grind settings, while the hopper with integrated feeder enables smooth flow without clogging. Well-isolated mechanical components reduce noise, and durable construction ensures long-lasting performance, making every grind fresh and every brew mindful.

**2-IN-1 SOLUTION**

Integrated precision scale syncs with the grind timer, delivering doses with ±1 g accuracy - no extra tools required.

**INTUITIVE GRAMS SELECTION**

Grind scale features a grams dial calibrated for popular brewing sizes, with ranges from 5-30 g and extra capacity for all brewing needs.

**ANTI-STATIC TECHNOLOGY**

Internal anti-static technology prevents dust accumulation, keeping your workspace clean and easy to use.

**GRINDING GUIDE CHART**

The guide provides a quick way to reach the desired grind size for preferred brewing methods.

**VERSATILE GRINDING RANGE**

Over 60 settings provide precise control, from fine espresso to coarse French press and cold brew - one grinder for every brewing method.

**HIGH-PRECISION CONICAL BURR**

48 mm stainless-steel conical burr ensures evenly sized grounds for optimal flavour extraction, consistent performance, and reliable use over time.

**QUIET BELT-DRIVEN MOTOR**

Belt-driven motor provides smooth, efficient grinding while keeping noise below 70 dB for a quieter morning routine.

**USER-FRIENDLY DESIGN**

Intuitive one-button interface simplifies grinding for beginners and ensures effortless use for everyone.

**PROCESS & MATERIAL:**

- Stainless Steel 304 housing
- PP+GF 25%
- Borosilicate glass
- BPA-free food-grade plastic and silicone
- PVC power cord (RoHs)

**COMPONENTS AND ACCESSORIES:**

- Components: coffee grinder, catcher tray with scale, catcher, hopper with integrated feeder, power cord
- Accessories: cleaning brush

**SIZE:**

W 136 x D 332 x H 290 mm

**DESIGNER:**

Martyna Piaściak,  
Piotr Kasprzak

It is wise to grind fresh before brew. Precision brings consistency.

<b>POWER CORD</b>	detachable cord IEC C13 angled, cord length: 1,2 m

It is wise to begin with water. It ends with coffee.

Aqua Brew (Capsule Coffee Machine) combines water purification and coffee brewing in one. Its removable jug with built-in filtration provides pure water for daily use and fresher coffee. Borosilicate glass preserves water purity and flavour.

With **30-second brew time, espresso and lungo settings, a hot water function, and adjustable tray**, it adapts to any routine.

Self-cleaning, overheat protection, and energy-saving mode make it **safe and easy to use**. Open, repairable construction and durable stainless steel ensure long-lasting use. Built to last, it **supports a mindful routine from pure water to perfect coffee**.

**2-IN-1 SOLUTION**

Coffee brewing and water purification solution in a single, versatile system.

**HEALTH BENEFITS**

1.75 L borosilicate jug with an **NSF-certified carbon filter** removes chlorine, heavy metals, and microplastics, providing clean, filtered water for coffee, drinking, or cooking.

**SELF-CLEANING FUNCTION**

LED indicators guide the machine's self-cleaning, making it easy to care for and keeping it performing at its best.

**QUIET OPERATION**

**Brews below 65 dB**, ensuring a calm, undisturbed environment for morning rituals.

**BREWED PERFECTION**

19 bars and 88-92°C deliver rich, full-flavored **espresso** with a thick crema in **under 30 seconds**.

**ADAPTIVE**

Switch easily between espresso and lungo, or use the hot water function - **adaptable to your personal rituals and habits**.

**CAPSULE COMPATIBILITY**

Compatible with Nespresso Original® and **Wise Habit biodegradable capsules**, giving the freedom to enjoy a wide variety of blends.

**SUSTAINABLE AND SAFE**

Crafted from stainless **steel and borosilicate glass** for durability, with minimal plastic use and BPA-free, food-safe materials for long-lasting, reliable performance.

**PROCESS & MATERIAL:**

- Stainless Steel 304 housing
- Aluminum, ABS, PPS, POM, PET+30%GF
- Borosilicate glass
- BPA-free food-grade plastic and silicone
- PVC power cord (RoHS)

**COMPONENTS AND ACCESSORIES:**

- Components: capsule coffee machine, borosilicate glass water jug, power cord
- Accessories: coconut shell activated carbon water filter disc

**SIZE:**

**W 248 x D 290 x H 332 mm**

**DESIGNER:**

**Martyna Piaściak**

Pause for wise coffee. Enjoy pure aroma.

It is wise to drink clean water.

Habit One (Aqua Jug) provides a practical solution for clean, safe drinking water. Its dual filtration system, featuring activated carbon and cotton, effectively removes contaminants such as chlorine, lead, and sediment, supporting health and well-being.

Made from **borosilicate glass**, it is lightweight and chemically neutral, **keeping water pure and free from taste transfer**.

Made for daily use, it combines style, **sustainability and reliability**. User-friendly design and durable build ensure lasting satisfaction and reduce plastic waste.

#### HEALTH BENEFITS

High-grade activated carbon removes over 99% of chlorine, heavy metals, and sediment, delivering fresh, clean, great-tasting water. NSF 42/IAPMO certified for **trusted drinking water quality**.

#### SUSTAINABLE AND SAFE

Crafted from **stainless steel and borosilicate glass**, with minimal plastic use and BPA-free, food-grade materials for durability and daily use.

#### COST-EFFECTIVE SOLUTION

Economical alternative to bottled water and other filtration systems, providing clean water while saving money.

#### FILTER CHANGE INDICATOR

Visual cue alerts when it is time to replace the filter, **ensuring consistent high water quality**.

#### COMPACT AND AESTHETIC DESIGN

Compact and unobtrusive, available in various colours, designed to suit different spaces.

#### PROCESS & MATERIAL:

- Borosilicate glass
- Stainless Steel 304
- BPA-free food-grade plastic and silicone

#### COMPONENTS AND ACCESSORIES:

- Components: water jug with internal glass parts and top lid
- Accessories: coconut shell activated carbon water filter disc

#### SIZE:

height: 232 mm

cylinder: 72 mm

Wise coffee  
anywhere.

The Wise Portable Espresso Maker is a compact, innovative solution for enjoying high-quality espresso anywhere. Designed for portability - perfect for travel, camping, or small-space rituals.

Manual operation gives full control over strength and flavour, delivering **rich crema and a personalised brew**. Compatible with both ground coffee and capsules, **it adapts to individual preferences**.

Battery-powered models make off-grid brewing simple, so espresso is ready anytime.

**DESIGNED FOR PORTABILITY**

Enjoy café-quality **espresso anywhere with an easy 3-step process**: add a capsule or ground coffee, pour in fresh water, press the button, and experience rich, aromatic coffee in seconds.

**COMPACT**

Weighing under 700 g, it fits easily into backpacks, travel gear, or glove compartments - perfect for **on-the-go use**.

**INTEGRATED CUP**

Double-walled bottom cup holds 60 ml, **keeping espresso warm** with rubberized base for stability and protection.

**UNIVERSAL CHARGING**

USB-C port and 12V/24V car adapter make **charging easy on the road or at home**.

**BREWED PERFECTION**

**Authentic espresso in under 30 seconds** - heating water to the optimal 93°C and applying steady 20-bar pressure for rich flavour and thick crema.

**CAPSULE COMPATIBILITY**

Compatible with Nespresso® Original **Pods**, Wise Habit **capsules**, and **ground coffee** - **brew your favourite coffee anywhere**.

**LONG-LASTING POWER**

Rechargeable Li-Ion battery (7500 mAh) powers **5-8 espresso cycles per charge**.

**SUSTAINABLE AND SAFE**

**Durable aluminium** with low-plastic design and BPA-free, food-grade components ensure **safe, reliable use**.

# ADAPTIVE TABLEWARE

Design and craftsmanship.

Wise Tableware collection celebrates the tradition of gathering together to **share food and meaningful moments**.

It draws from a wide range of culinary contexts – from casual, everyday dining to ritualised, communal serving. These references shaped the forms and proportions, creating pieces that feel familiar yet open to reinterpretation.

It follows our principles of designing **adaptive and modular solutions that combine functionality with ritual and playfulness**.

**In collaboration with chefs, craftsmen, and artists**, our design team created a unique **tableware system that combines universal design with respect for traditions and rituals**.

### Adaptive

Designed to adapt to individual needs. The products complement each other, with **shapes that fit together** to allow personalization and exploration of **each product's different functions**.

### Raw material

The porcelain body is harder than steel, making the products **durable and long-lasting**. Designed to be **used across generations**.

### Prevents contents from caking

With water absorption below 0.5%, porcelain absorbs almost no moisture. Its extremely low porosity **keeps whatever is stored in it loose and prevents clumping**.

### Balanced thickness

The thickness achieves a precise balance between **heat retention and comfort**, keeping dishes warm for longer while remaining safe to handle during serving.

### Local craftsmanship

Each piece is made in a **family-run porcelain manufactory**, where traditional knowledge meets contemporary design thinking. This process allows space for refinement, ensures **consistency, durability, and material integrity**.

### Unique matt porcelain

The exterior **remains unglazed**, preserving a raw, tactile finish where the hand meets the object. Over time, the surface becomes smoother and the color deepens.

### Non-absorbent nature

Thanks to its glassy structure, porcelain is impermeable. Due to its non-absorbent nature, **it resists odors** and stains and does not deteriorate when exposed to moisture.

### Thermal properties

Our highest quality porcelain allows the products to be used both in the oven and in the freezer.

# ADAPTIVE TABLEWARE

The simple, round Bowler Mug is designed for relaxed, mindful celebration of hot beverages. Instead of a traditional handle, it features a ring that prevents slipping and protects fingers from the hot surface.

Crafted from specially developed porcelain, it **requires no glazing**. Its **matte surface** gives each mug a distinctive character and ensures **it will age beautifully**, becoming smoother and darker over time.

Available as a **stackable** 4-piece set, the Bowler Mug combines practicality with timeless design.

#### THE RING

Around the mug **lets you hold it comfortably**, without touching the hot surface.

#### FUNCTION

The build-in ring protects your fingers from burns - **if it's too hot to hold, it's too hot to drink.**

#### COMPATIBLE

All Bowler Mugs **fit together seamlessly, regardless of size.**

#### STACKABLE AND MODULAR

**Stack neatly** for easy storage. As part of a modular series, they offer **flexible combinations and versatile use**, adapting perfectly to your kitchen or table setup.

#### THERMAL PROPERTIES

BALANCED THICKNESS

Ola Mirecka

Mindful moments,  
perfectly held.

The Milk Jar and Sugar Bowl are part of an adaptive collection that features simple forms and modular solutions.

Made from matte, unglazed porcelain, they withstand both oven and fridge temperatures and develop a smooth, richer tone with use.

Their bases are compatible with the Short Plate and Long Plate, allowing them to nest and stack securely for efficient storage and serving.

#### SPOUT GEOMETRY

Ensures precise, drip-free pouring and the wide opening of the Sugar Bowl provides easy spoon access without tilting.

#### MULTI-USE

The Milk Jar is designed for milk service and can also be used for cream, sauces, or dressings. The Sugar Bowl is suitable for sugar service, preserves, condiments, or storing small dry ingredients.

Quiet forms,  
part of everyday coffee  
and tea rituals.

Open Glass set of six mass-colored, hand-blown tulip glasses enhances aromas and flavors, complemented by the matching Open Carafe.

Simple yet sophisticated in form, the Open Glass and Open Carafe are versatile and suitable for any occasion. The **tulip shape lets drinkers enjoy a full range of aromas and flavours.**

Each piece is coloured throughout the body and crafted from **high quality, hand-blown glass.** The set includes 6 glasses, perfect for serving a variety of drinks. The Open Carafe is sold separately.

#### DURABLE

The glass is dyed throughout the body rather than coated on the surface, which makes it **highly durable** and **dishwasher safe.**

#### FUNCTIONAL

The tulip shape enhances the drinker's experience, allowing **aromas and flavours to be fully appreciated.**

#### PROCESS & MATERIAL:

Effortless functionality  
for daily table rituals.

Ramekin is a porcelain dish with a recessed foot - ideal for baking, sauces, and individual desserts. As a part of our adaptive collection it's design and shape fits perfectly with other elements of collection: Welcome Plate and Long plate.

The Ramekin is designed for versatile use in the kitchen and at the table.

Its recessed foot adds **stability for easy handling and serving.**

Part of our adaptive collection, its design and shape fit perfectly with other pieces, as the Welcome Plate and Long Plate.

It offers **multi-functional use**, and its shape, size, and material make it an attractive addition to any table.

**PRECISELY PROPORTIONED**

To fit with specific plates from the collection, enabling structured compositions and providing **stability for handling and serving.**

**FUNCTION**

Safe for oven and fridge use, the Ramekin is **suitable for baking or serving chilled dishes.**

**COMPATIBLE**

The base is compatible with the Welcome Plate and Long Plate, providing stability when nested together.

**MULTI-USE**

Ideal for butter, jams, sauces, oils, dips, or individual portions.

Your daily companion for shared meals.

Adaptive Bowls is a nestable, stackable three-piece porcelain set for compact storage and versatile serving.

The Adaptive Bowls set includes **three stackable** porcelain bowls in various sizes. Their graduated sizes allow them to **stack from smallest to largest**, forming a stable, inverted pyramid that **reflects the collection's modular concept**.

As part of the **adaptive system**, the largest bowl is **designed to pair with** the 20 cm Flat Plate and the Welcome Plate, both of which can **serve as covers** - either **stacked in the system or used separately**.

#### STACKABLE AND MODULAR

The bowls nest inside each other for easy, compact storage. The two smaller bowls fit within the largest, or they can be stacked in reverse to form a tower.

#### FUNCTION

Three bowls in proportional sizes, designed to meet different serving needs within a complete system.

Adaptive Bowls

Short Plate and Long Plate are versatile elements of the collection, designed for both direct food service and for composing sets with other pieces.

Made from **matte porcelain** and **glazed on the inside**, they are suitable for both **hot and cold use**. As part of the **adaptive system**, they accommodate Ramekins and align with the diameter of the Soup/Tea Carafe, Sugar Bowl, or Milk Jar, creating balanced compositions.

#### LINEAR FORMAT

Allows **several vessels to be placed side by side** on a single surface, keeping them stable and easy to serve.

#### FUNCTION

Enables stable carrying of Ramekins or smaller vessels and expands possibilities for food arrangements.

#### THERMAL PROPERTIES

BALANCED THICKNESS

#### PREVENTS FROM CAKING

HANDCRAFTED

#### NON-ABSORBENT NATURE

# WISE KITCHEN SYSTEM

Freedom in the arrangement of space and the possibility of constant change.

Wise Kitchen is a collection of **mobile kitchen furniture adaptable to any interior**, comprised of free-standing modules on wheels. The collection was born from the need to **rethink how cooking spaces function** in contemporary life. What began as a response to optimizing space evolved into a **modular system that redefines the traditional kitchen**, transforming it from a fixed installation into a **flexible, movable architecture**.

The collection follows our principles of creating adaptive, modular solutions that combine **functionality with spatial freedom**. Each module is designed to be viewed from all sides, allowing it to function not only against a wall but also as a central element or partition. This approach opens the kitchen to offices, apartments, boutiques, and event spaces – **wherever flexibility is required**.

### Adaptive

Designed to **respond to changing spatial conditions** and evolving lifestyles, Wise Kitchen **adapts to different interiors and scenarios of use**. The modules can be reconfigured, expanded, or reduced without the need for permanent installation.

### Mobile

Integrated casters allow each module to **move freely while remaining stable** when positioned. The system **enables smooth rearrangement** within a space **or complete relocation**, making mobility a defining principle rather than an added feature.

### The flat-pack

It's construction allows for **efficient transport** and **reconfiguration**, extending the system's lifecycle and adaptability.

### Modular

Its modularity and connectivity enable intuitive personalisation and **efficient space management**.

### Design and function

**Generous storage solutions integrate appliances and accessories** while maintaining clarity of form. Sliding doors ensure safety and ease of use, while integrated casters and folding legs provide mobility without compromising stability - even on uneven surfaces.

### Sustainable

Made from a durable metal frame and **Valchromat®**, a **recycled wood-fibre material** dyed with environmentally responsible pigments, the modules reflect a **conscious material choice**.

# WISE KITCHEN SYSTEM

**Together.**

Couple is a compact double kitchen module designed to integrate essential appliances into a minimal footprint. Its balanced, all-sides design makes it suitable for open interiors, while integrated wheels allow for easy repositioning as needs change.

Built-in levelling feet ensure stability even on uneven surfaces. Made from a powder-coated steel frame and durable Valchromat®, the module can be configured with a wide range of appliances, making it ideal for homes, offices, and event spaces.

**MOBILE**

Integrated wheels for easy repositioning, designed to provide smooth mobility and adapt to changing needs in any space.

**ADJUSTABLE FEET**

Built-in feet allow the furniture to be leveled even on the most uneven surfaces.

**SUSTAINABLE**

Made from Valchromat®, an eco-friendly, durable, recycled material.

**LOCKABLE**

Lockable design allows creation of a discreet kitchen area in any space.

**DESIGN AND FUNCTION**

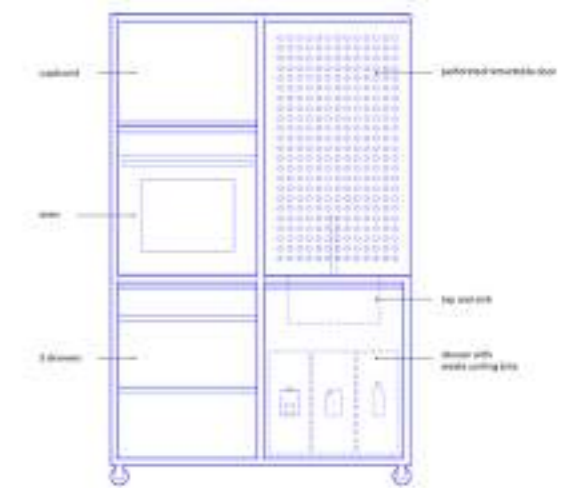

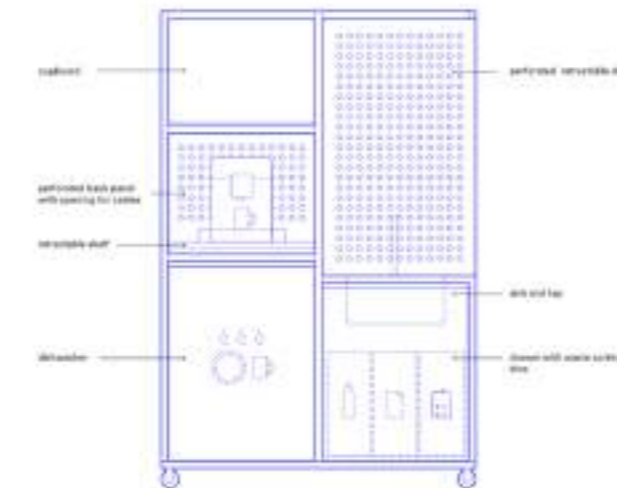

Configurable with kitchen appliances such as a sink with mixer tap, dishwasher, oven, coffee or tea machine, fridge, microwave, and drawer with waste sorting bins.

**PROCESS & MATERIAL:**

- Fronts, backs, walls: Valchromat® (coated with certified BIO varnish)
- Frame: powder-coated steel
- Base: brushed stainless steel
- Levelling castors

**COMPONENTS AND ACCESSORIES:**

- 1 x Couple (Double Module), optional appliances: sink with a mixer tap, dishwasher, oven, coffee machine or tea machine, fridge, microwave, drawer with waste sorting bins

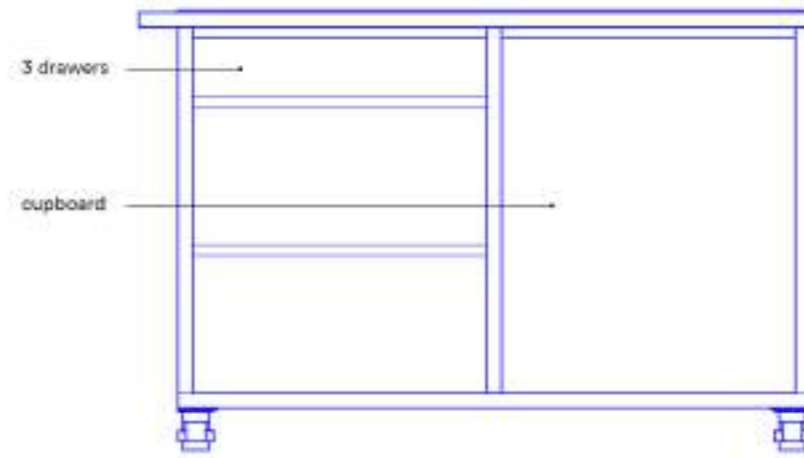

**SIZE:**

W 1290 x D 660 x H 1990 mm  
50,8 x 26 x 78,3"

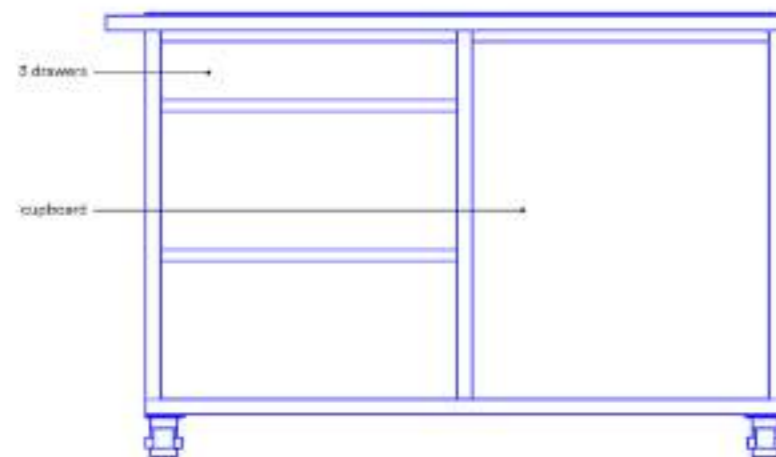

**DESIGNER:**

Karolina Ferenc,  
Ryszard Rychlicki

Make the choices that will follow your conscious life. Enjoy the freedom of mobility.

ISLAND

ISLAND + COOKTOP

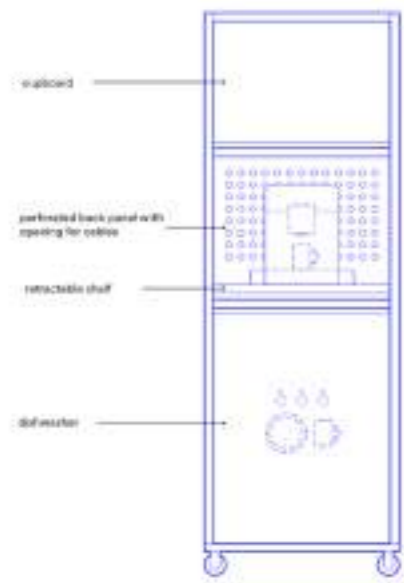

## Center

Center is a compact, mobile kitchen island designed as a flexible workspace and storage hub for modern interiors. Configurable with a heating stove and a coffee or tea machine. Recognized by experts in the international IF Design Award 2024 competition.

# TEXT BLOCK SHELVING

Text Block adapts to change.

Text Block is built on a simple conviction: that clear design principles endure. It celebrates the **quiet strength of geometry, where form and function meet without excess**. The cube becomes a starting point - reduced, balanced, and open to interpretation.

Rather than defining a single solution, **Text Block offers a framework** for creating one's own. Its **modular structure allows elements to be combined**, separated, stacked, and reconfigured with ease. Text Block comes in two designs, offering different inner forms and shelving possibilities. Rearranging the system requires no complicated assembly - **modules connect intuitively** using lightweight steel shelves and metal clips, **making spatial change immediate and natural**.

The pure form of the cube and its capacity for infinite rearrangement allow for **personalized compositions**. Repetition, rhythm, openness, and enclosure can be shaped freely, forming an individual spatial language that evolves over time. The design remains **practical and intuitive, adapting to changing needs**.

#### Adaptive

Text Block **adapts** to homes, offices, and hospitality spaces alike. It organizes without imposing, displays without overwhelming, and **maximizes space while preserving clarity**.

#### Quality and timeless

Made from **heat-treated wood** or lightweight steel, the blocks ensure dimensional **stability and durability**. The material palette emphasizes texture and colour, while the internal bar detail introduces subtle rhythm.

#### Modular

More than storage, it is a foundation for composition. A **system that transforms simple modules into an evolving architectural language**. Thanks to their modularity, Text Blocks allow for almost unlimited combinations.

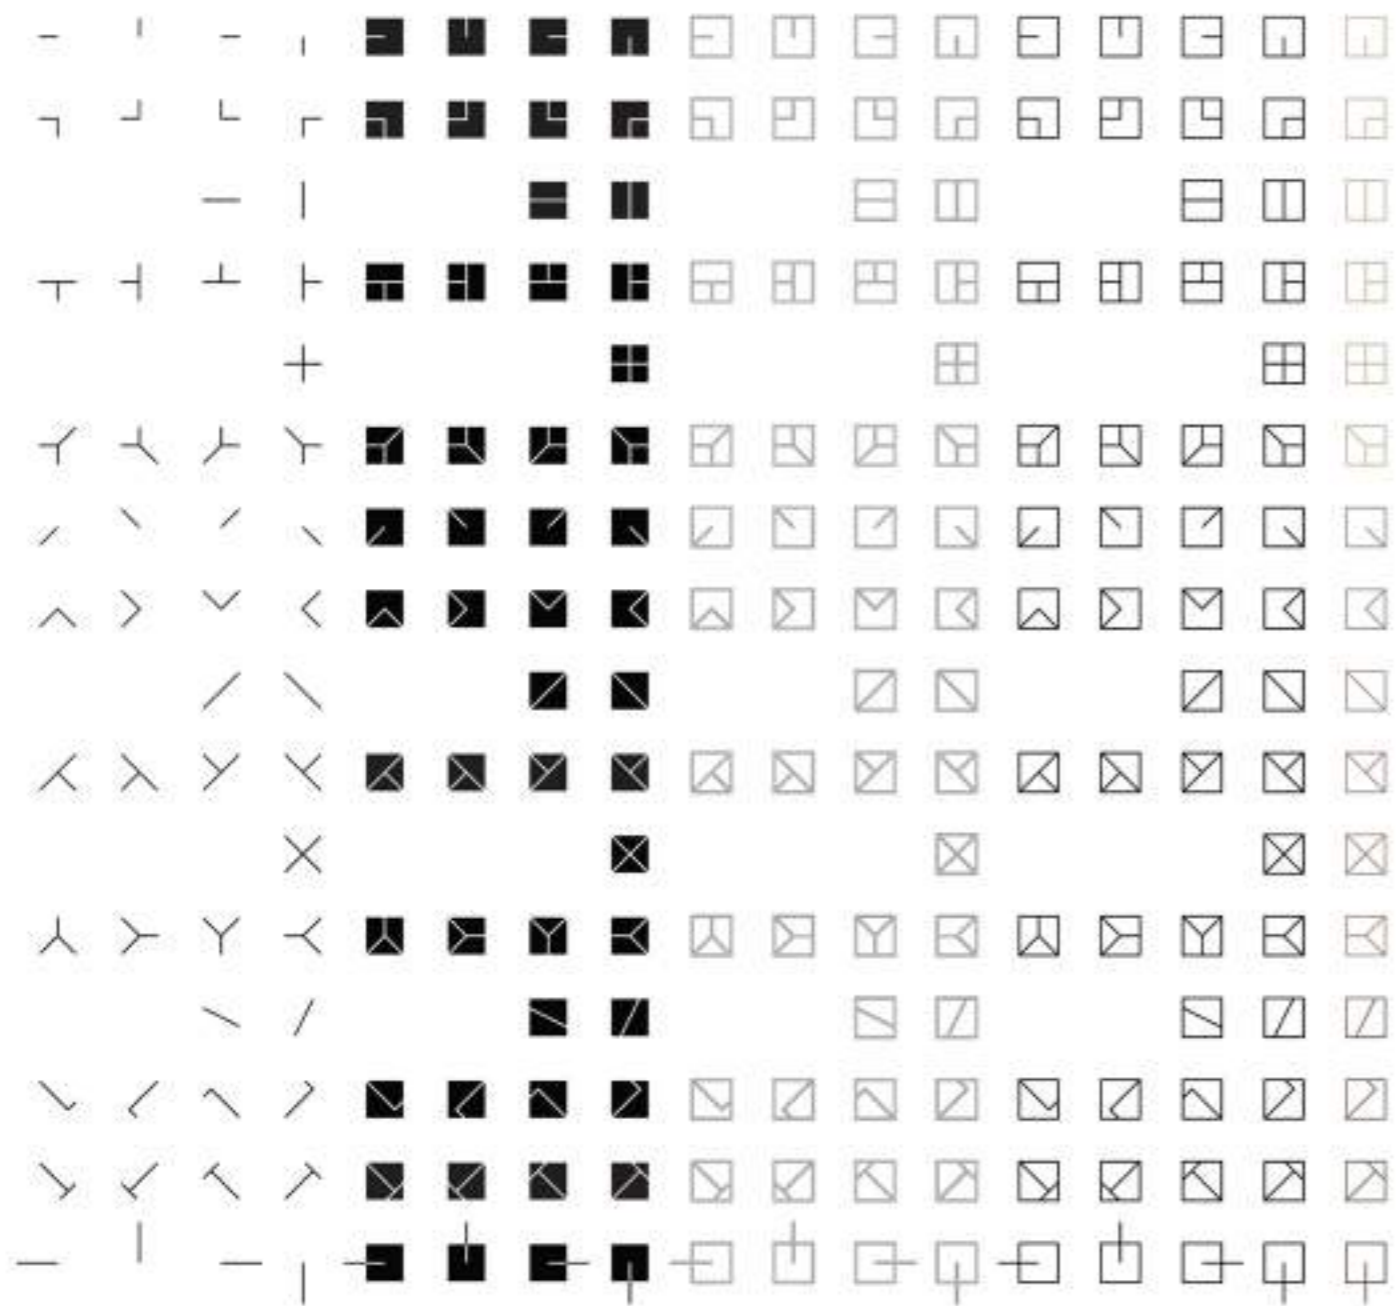

#### Multi-function

Its shape and assembly system maximize functionality. **Rearrange the cubes** to create tables, nightstands, storage solutions, or **anything your imagination allows**.

# TEXT BLOCK MODULAR SHELVING

# TEXT BLOCK LANGUAGE TEXT BLOCK LANGUAGE

When rotated by 90 degrees, the **internal geometry of the cubes begins to resemble different letters of the alphabet**. This idea forms the basis of the **Text Block language** – a **playful system** in which modules and their arrangements **can be read as abstract characters**, allowing compositions to subtly evoke **words and patterns**.

The cubes remain **visually clear and structural**. Their role is both to display objects and to maintain a visible architectural order, allowing books, records, or everyday items to interact with the **geometry of the system**. A distinctive inner crossbar introduces an additional graphic element that subtly changes the character of each configuration and **creates different patterns within the compositions**.

### Play with the pattern

A simple **90° turn of a cube creates different patterns** within the shelving system.

### Easiest to assemble

Modules **connect intuitively** using lightweight steel shelves and metal clips. **No tools or assistance needed.**

### Easy to rearrange

Light and easy to move and **rearrange** within any space.

### Endless possibilities

**Mix and match** the two Text Block types in wood or steel, in any available color, to **maximize multiple possibilities of shape and arrangement.**

ABCD  
DCBA  
ABCD  
DCBA

Endless possibilities.

Text Block is a modular storage system that allows endless compositions from a basic form. The cubes give unlimited and personalized arrangements of furniture – shelving systems, tables, and many more.

Reconfiguring the modules takes only a moment - assembly is simple and enjoyable, like building blocks connected using lightweight steel shelves and metal clips. Text Block comes in two designs, A-D and E-H, offering different inner forms and patterns possibilities.

**MODULAR**

Modular cube system enabling **almost unlimited spatial configurations.**

**EASY TO ASSEMBLE AND REARRANGE**

Quick, intuitive **assembly and reconfiguration without tools.**

**ADAPTIVE**

Efficient use of space with **adaptable, personalised layouts.**

**DURABLE MATERIALS**

Made using durable, **long-lasting materials.**

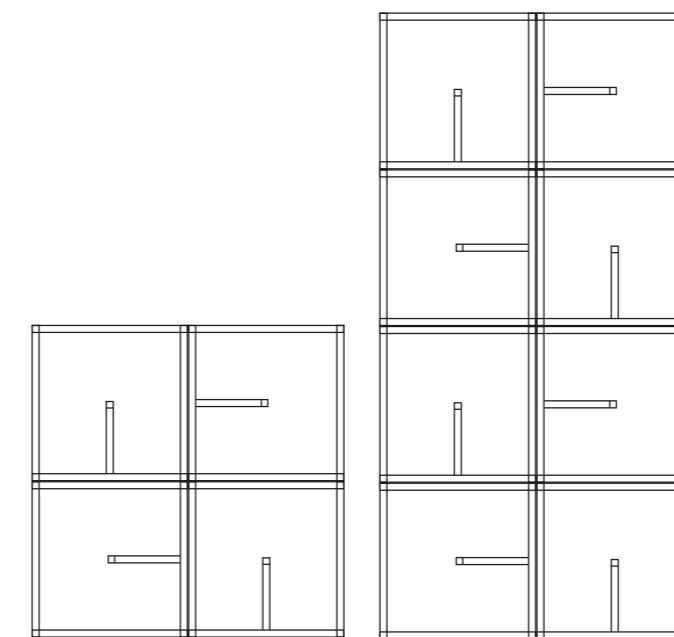

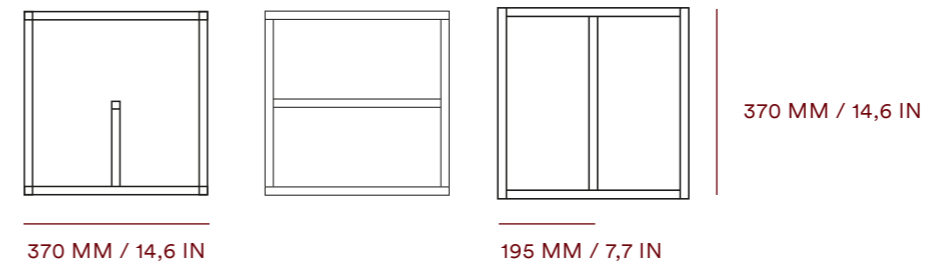

**COMPONENTS AND ACCESSORIES:**

Wood:

- Single set: 1 x cube, 1 x shelf, 2 x clips
- Double set: 2 x cubes, 1 x double shelf, 4 x clips
- x 8 set: 8 x cubes, 4 x shelves, 16 x clips

Metal:

- Single set: 1 x cube, 1 x shelf, 2 x clips
- Double set: 2 x cubes, 1 x double shelf, 4 x clips

**DESIGNER:**

**Pini Leibovich**

„A timeless product reframes the cultural ideas that time renews over and over again. Simplicity is the moment when function and composition have one truth. The perfect product seems as if it was always missing before it was even created.”

Text Block is available in two design series, A-D and E-H, each offering unique internal forms and pattern possibilities.

**Text Block A-D** features a multifunctional cube with built-in shelf and diagonal support for wise and versatile storage.

**Text Block E-H** offers a simple form defined by a diagonal crossbar.

The cubes give **unlimited and personalized arrangements** of furniture – shelving systems, tables, and many more.

## Endless possibilities.

Text Block is a modular storage system that allows endless compositions from a basic form. The cubes give unlimited and personalized arrangements of furniture – shelving systems, tables, and many more.

Endless Possibilities

Designed to ensure the **correct position of the spine**. We have used **memory foam** combined with coconut mattress **to ensure highest comfort and lightness**.

The collection was designed to be a **coherent element of a well-designed interior**. When pillows are visible, your brain gets used to them and, after a while, it supports you in building wise habits.

Made from high-quality, **recycled materials**. Lightweight, easily portable and washable. **Suitable for indoor and outdoor use**. To provide perfect relaxing experience. **The inner foam does not deform over time**. Upholstery is **washable**, which means the set can be used for years without compromising aesthetics or quality.

Meditation Pillows are two models of pillows and a mat that, in the chosen configuration, make up a **carefully designed set that promotes relaxation and comfort during meditation sessions**.

#### Thick layer of memory foam

Engineered with a **thick layer of memory foam**, our cushions **uniquely adapts to your body**, providing **better support for the spine** and a comfortable, upright posture during meditation.

#### High-quality & long-lasting upholstery

Made with durable upholstery, the cover is built to last - **guaranteed up to 100,000 rubs without losing quality**, offering a **safe and long-lasting choice**.

#### Removable & washable cover

Designed for effortless hygiene, the removable cover keeps the pieces fresh **for mindful practice anywhere** – garden, park, or home.

#### Convenient handle

Designed for mobility, it **facilitates on-the-go meditation** with easy transport.

#### Lightweight

Thanks to **lightweight, recyclable filling and a natural coconut base**, the pieces are **easy to carry, keep their shape, and resist flattening over time** - perfect for practice at home or outdoors.

#### Selection of shapes

The cushions in our collection are available in **two shapes to suit every need**, Round and Heart, and are **suitable for all body sizes**.

#### Outdoor option

**Waterproof upholstery option** available, perfect for mindful outdoor practice.

# BE AWARE

**POSTURE SUPPORT**

Angled seat supports correct posture and **spinal alignment during meditation.**

**LIGHTWEIGHT**

Lightweight **coconut filling** with **integrated handle** for easy portability.

**OUTDOOR OPTION**

Optional **waterproof covers** for outdoor use.

**THICK LAYER OF MEMORY FOAM**

Adaptive inner foam **retains its shape over time.**

**REMOVABLE & WASHABLE COVER**

High-quality recycled materials with a **removable, washable cover.**

**HIGH-QUALITY MATERIAL**

Made in Europe from **durable, long-lasting materials.**

**PROCESS & MATERIAL:**

- Upholstery: 100% recycled polyester, Acrylic outdoor
- Filling: coconut mat, PU memory foam - Thermoelastic VISCO
- Details: YKK zippers, PP tape, nylon tag

**COMPONENTS AND ACCESSORIES:**

- 1 x The Round Pillow

**Clear your mind.**

The Round Pillow features a simple yet effective design that guides the seat at the correct angle, ensuring correct posture and spinal alignment during longer meditation sessions.

A thick layer of memory foam adapts to the body, provides stable spinal support, and does not flatten over time. Lightweight padding and integrated handles make it easy to carry, while the removable, washable covers simplify maintenance, keeping the pillow clean and fresh for years.

**SIZE:**

**W 400 x D 400 x H 170 mm  
15,8 x 15,8 x 6,7“**

**DESIGNER:**

**Karolina Ferenc**

“Meditation is the delicate art of doing nothing and letting go of all the efforts to relax into your true nature which is love, joy and peace.”

**POSTURE SUPPORT**

Sloped, heart-shaped design supports **correct spinal alignment** and adds **comfort for knees during meditation**.

**LIGHTWEIGHT & EASY TO CARRY**

Lightweight **coconut filling** with **integrated handle** for easy portability.

**HIGH-QUALITY MATERIAL**

Made in Europe from **durable, long-lasting materials**.

**OUTDOOR OPTION**

Optional **waterproof covers** for outdoor use.

**PROCESS & MATERIAL:**

- Upholstery: 100% recycled polyester, Acrylic outdoor
- Filling: coconut mat, PU memory foam - Thermoelastic VISCO
- Details: YKK zippers, PP tape, nylon tag

**COMPONENTS AND ACCESSORIES:**

- 1 x The Base Mat

**Balance.**

The Base Mat guarantees full comfort for legs during meditation sessions.

Made from environmentally friendly coconut fibers and recycled polyester upholstery, it offers breathable and supportive qualities, promoting comfort for legs and knees during meditation sessions and contributing to a healthier and harmonious meditation experience.

**SIZE:**

W 800 x D 800 x H 20 mm  
31,5 x 31,5 x 0,8“
